

# Seven Card Stud Stacked Deck: The Ultimate Guide to Cheating at Poker

There are several different ways to stack a deck. One common method is to use a stripper deck. A stripper deck is a deck of cards that has been modified so that the cards can be easily separated into two piles. This allows the player to stack the deck in such a way that the cards they want to come up next are on top.

Another method of stacking a deck is to use a cold deck. A cold deck is a deck of cards that has been chilled so that the cards are more slippery. This makes it easier to stack the deck in the desired order.

Finally, it is also possible to stack a deck by hand. This is a more difficult method, but it can be done with practice.
